

# SUPERFAN

**INTERACTIVE  
EXPERIENCE**

# BRAINSTORM

*come up with three different ideas of themes + interactive features*

# Idea 1: Dallas Cowboys

## Theme

*The theme will be the history for the Dallas Cowboys and its players, staff, and other facts.*

## Interactive JS Feature #1

*Click on different time periods and see fact/stats after a rotation of pictures*

## Interactive JS Feature #2

*Make a button where you can click and change the cowboys uniforms with the years and shows what years super bowl won*

## Interactive JS Feature #3

*Click on star to play youtube video in new tab about cowboys*

# Idea 2: One Piece

## Theme

*The theme will be going over One piece crews and characters*

## Interactive JS Feature #1

*Feature where you chose crew by jolly roger and it expands showing members of said crew*

## Interactive JS Feature #2

*If you click on charter it plays fight scene and fact*

## Interactive JS Feature #3

*Change forms of certain characters when clicked*

# Idea 3: Star Wars

## Theme

*Exploring the Star Wars prequel and original trilogy*

## Interactive JS Feature #1

*Click on a movie then shows important characters of movie*

## Interactive JS Feature #2

*When click charter change the form of the charter ad play audio or video*

## Interactive JS Feature #3

*Make A lightsaber on the side or top that you can click that will change between the colors lightsabers can.*

# EVALUATE

*think about the good and bad for each idea then choose one*

# Evaluate + Choose Your Idea

	Pros	Cons
Idea 1:Dallas Cowboys	<ul style="list-style-type: none"><li>• I am a huge Cowboys fan</li><li>• Possibilities to look at a lot of content, 60ish years of history</li><li>• I really want to do it</li></ul>	<ul style="list-style-type: none"><li>• Some pictures and videos could be hard to find</li><li>• Not a lot of aspects to be uniquely interactive</li></ul>
Idea 2:One Piece	<ul style="list-style-type: none"><li>• I like One Piece</li><li>• A lot of media (1000+ episodes, 1000+ chapters and 15+ movies)</li></ul>	<ul style="list-style-type: none"><li>• I don't think it will be that special</li><li>• Most interactive parts I can think about are just videos appearing</li></ul>
Idea 3: Star Wars	<ul style="list-style-type: none"><li>• Cool possibilities to make javaScript commands</li><li>• I am a big fan of star wars</li><li>• A lot of media to choose from (movie.shows, ect)</li></ul>	<ul style="list-style-type: none"><li>• Hard to find a lot of content because of copyright?</li><li>• </li></ul>

# CONTENT

*gather and edit essential content for your site*

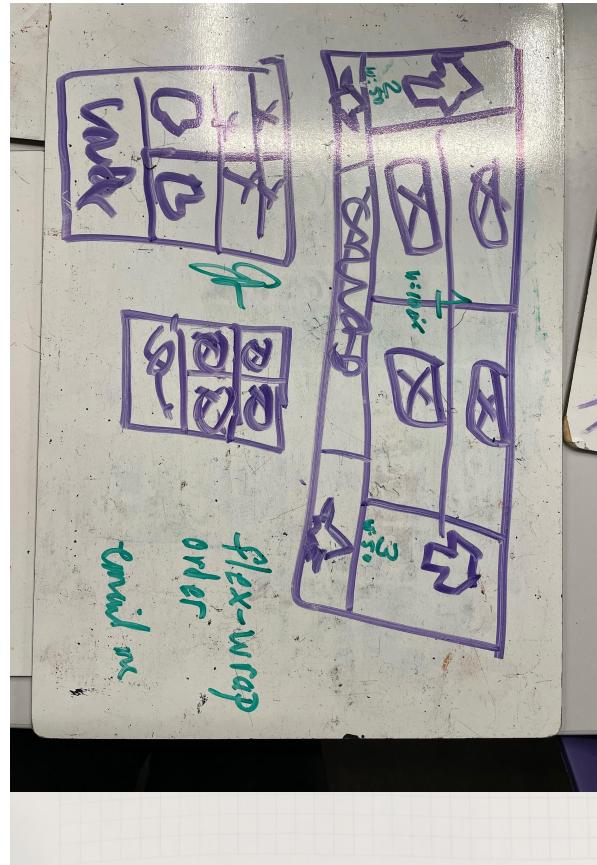

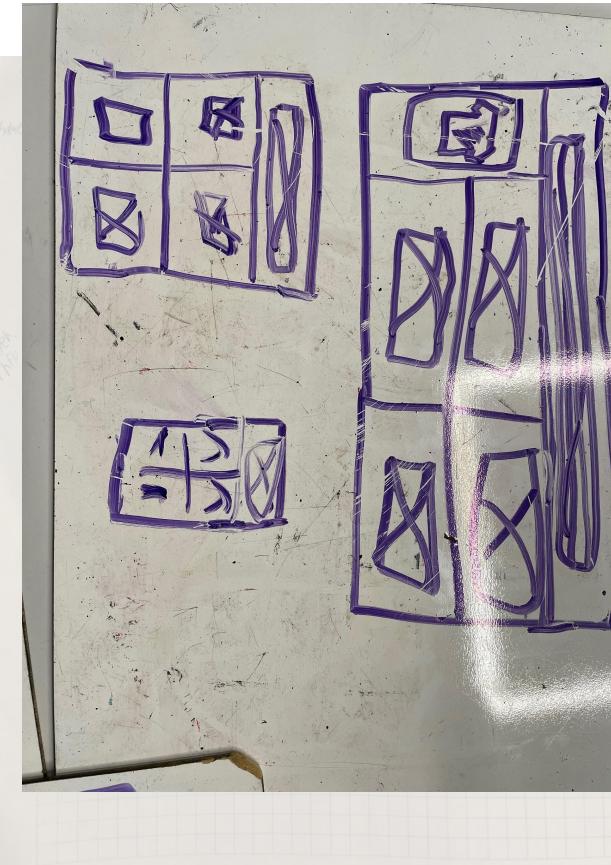

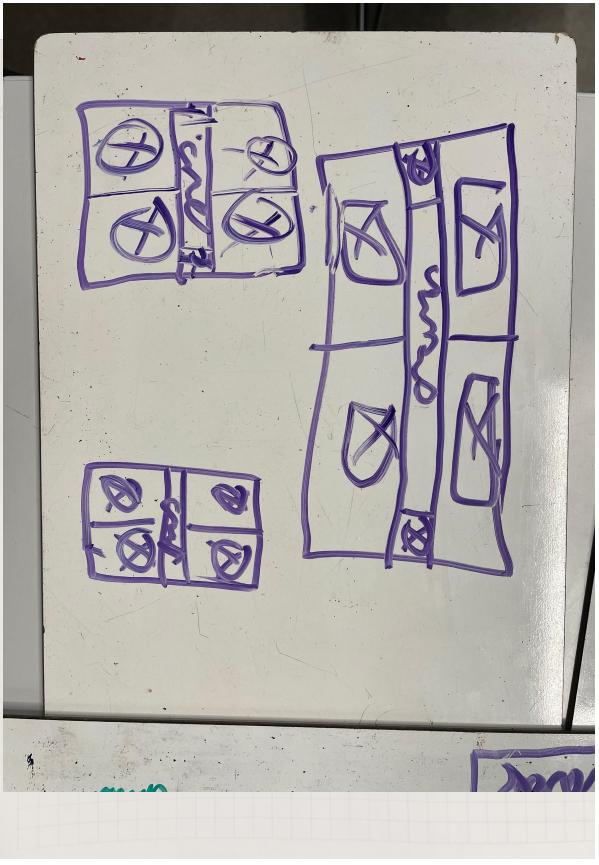

# DALLAS COWBOYS

# DESIGN

*create three possible responsive designs for your chosen idea*

# MOCKUP

*choose your final layout and create a digital mockup*

2006-2016

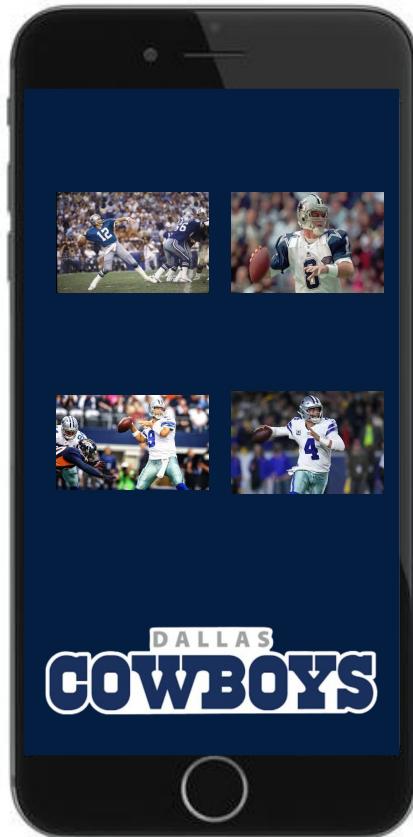

2006-2016

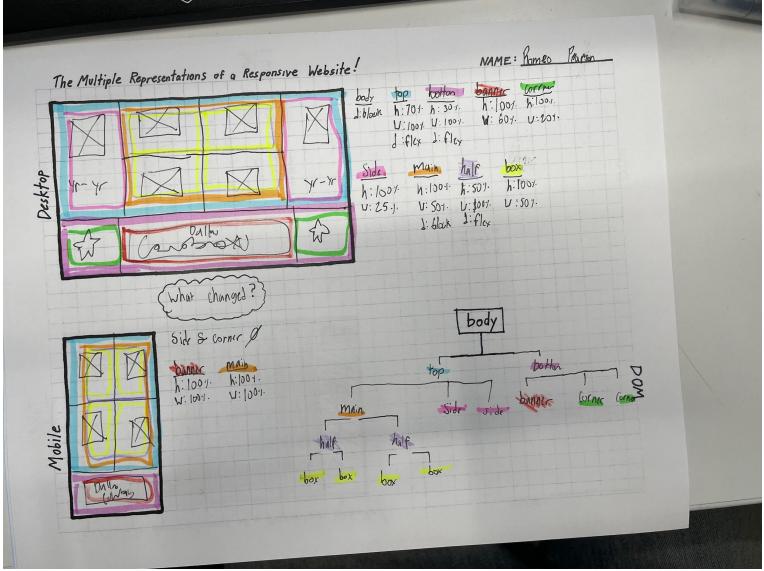

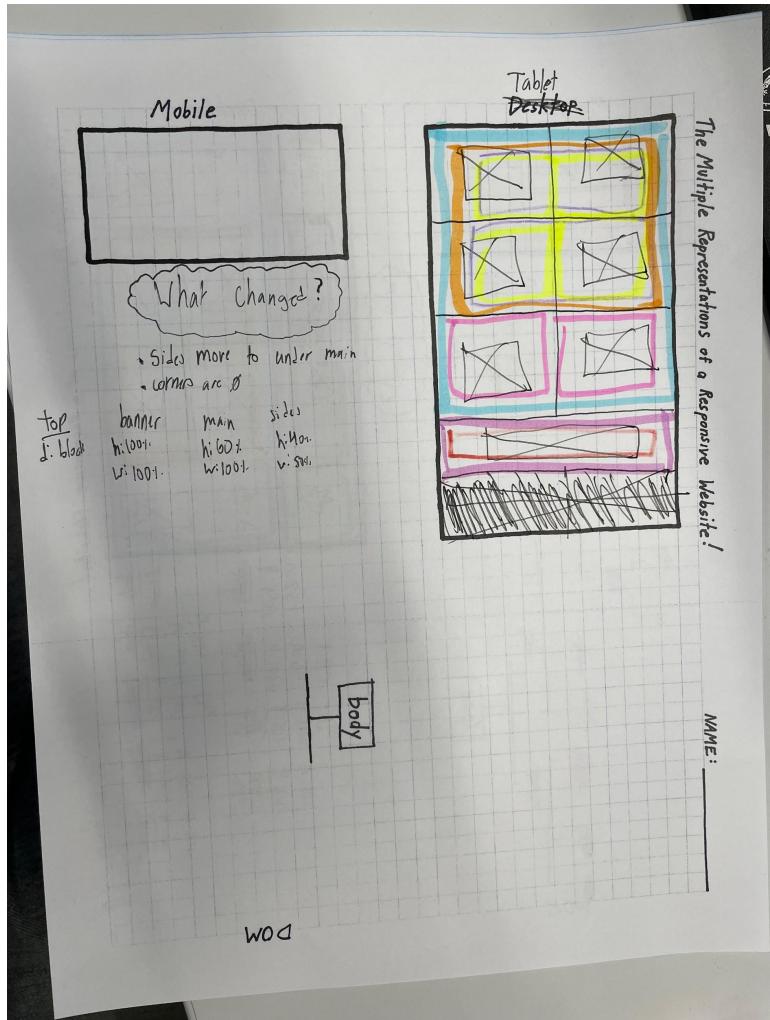

DALLAS  
**COWBOYS**

# ANNOTATE

*add explanations, colors, percentages, and display properties + draw your dom*

# HTML

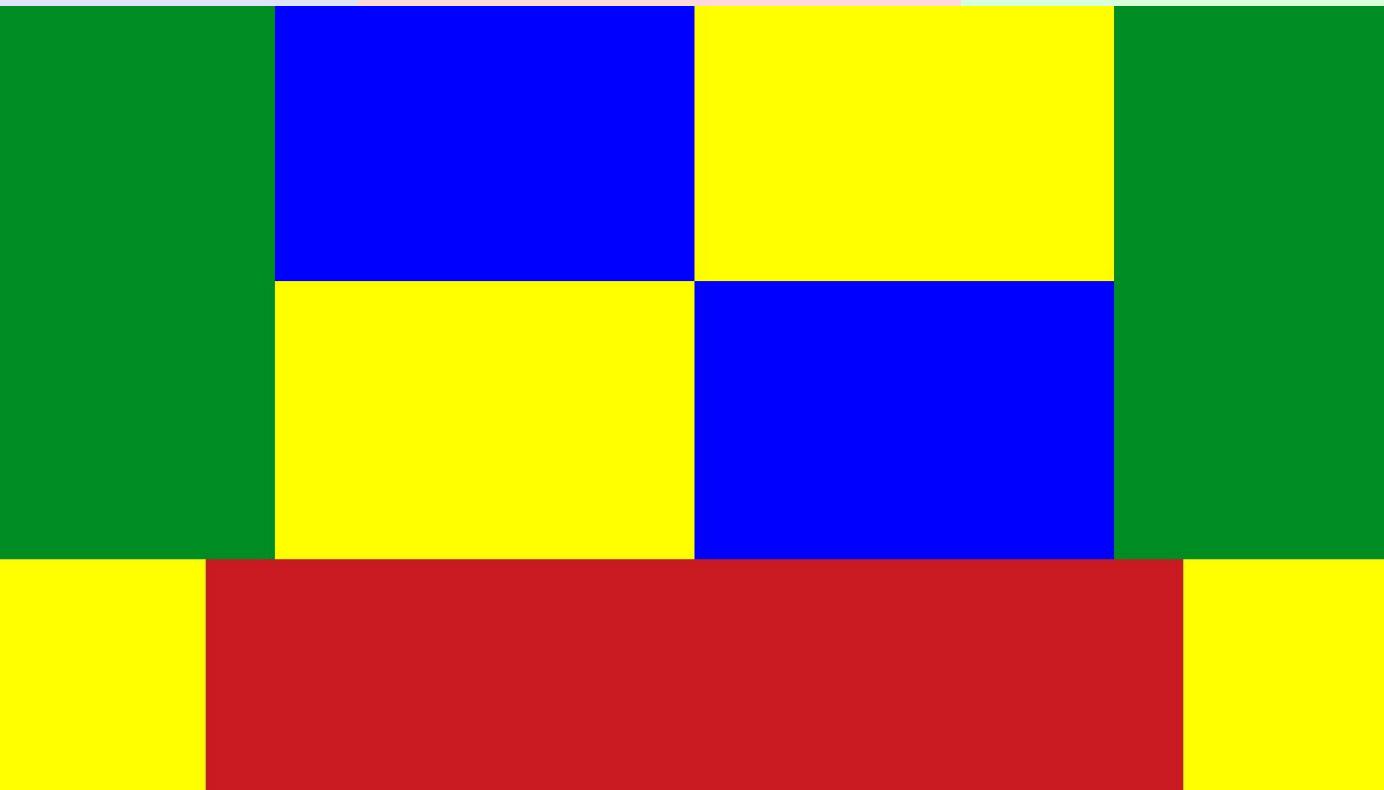

ESS

# BUILD

*create your desktop divs using html and css then make it responsive*
